

# Embedded Custom Boards

When off-the-shelf isn't enough, we customize to your requirements -

## Features

## Description

Customization options include:

- Custom & Standard Single Board Computers (SBCs)
- Custom & Standard Computer on Module (COMs)
- Carrier Board design
- Additional wired and wireless interfaces
- Specialized I/O configurations
- Cellular, GNSS, Wi-Fi, Bluetooth and LPWAN integration
- Mechanical design
- Circuit and thermal simulations
- Security-enhanced hardware architectures
- Custom power management solutions
- Long-term lifecycle management

By combining proven Eurotech technologies with customer-specific requirements, we deliver reliable, manufacturable, and scalable solutions that balance performance, security, and long-term availability.
